# Ramanand Tiwari
## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Full Stack Developer with expertise in Node.js, MongoDB, and headless commerce solutions, skilled in optimizing e-commerce platforms and automating workflows. Proficient in frontend development with HTML and CSS, and experienced in low-code/no-code solutions.

### WORK EXPERIENCE

**Cnetric Global Inc**
Node.js Developer
March 2024 – September 2024
**Job responsibilities:**

- Full Stack Developer with expertise in headless commerce, enhancing processing efficiency and automating workflows using Node-RED. Skilled in backend services with Vendure, improving order management and overall e-commerce performance.

### PROJECTS

### 1. Vetspot | ⊕ | ⊛
**JavaScript | Node.js | Git | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3 | Responsive Web Design | Socket.io**

- Established an online platform for convenient veterinary appointment bookings for pets using MERN stack.
- Designed and crafted a responsive landing page and navbar, enhancing navigation.
- Implemented user authentication and streamlined appointment selection, boosting registrations and reducing booking time.
- Utilized Socket.io for real-time updates, enhancing user experience.

### 2. Bewkoof Clone | ⊕ | ⊛
**JavaScript | Git | Node.js | MongoDB | Express.js | CSS3 | HTML5 | Responsive Web Design | RESTful APIs**

- Engineered a user-friendly e-commerce website for men's and women's clothing using modern web technologies.
- Improved customer shopping experience with an intuitive interface and navigation, reducing the drop-off rate.
- Developed backend functionality for product management, user authentication, and session handling, resulting in increased user activity.
- Integrated admin controls for inventory management, streamlining administrative tasks.
